

# CLIMB THE PYRAMID

**Directions:** Using a game marker or a dry erase marker player one starts at the yellow circle at the bottom of the pyramid. Player one performs that activity. Player two starts at the brown circle at the bottom of the pyramid and performs that activity. Player one now draws a line or moves marker up one circle. Player one has to perform the first activity and then the activity at the second circle. Player two moves up and does the same thing. Player one moves up one more circle then performs activity 1, 2 and 3. If you make a mistake slide back down the pyramid and start again. Continue until both players make it to the top of the pyramid. © 2007 Your Therapy Source, Inc [www.YourTherapySource.com](http://www.YourTherapySource.com)
